## Hands-on training in Electronics and Measurement Techniques

**FREE**

### Training towards National Skill Development for Semiconductor Industries

This Hands-on course covers the fundamentals of Electronics, analog and digital circuits, sensors and basics of embedded systems, bridging the gap between academia and industry to empower individuals to start their career in electronics domain with confidence. It offers a strong emphasis on practical experience, with 80% hands-on training and 20% theory.

### Course Outcomes

- Participants will gain the knowledge on basic designing and testing of electronic circuits
- Enhance the knowledge on Measurement Techniques
- Improves analytical skills and conceptual understanding
- Skill development satisfies the industrial needs

### Prerequisite

Diploma(Final Year/Completed)  
with Electrical/Electronics background

**Scan to register**

**Registration Deadline**  
**Nov 27, 2024**

**Course Duration : Dec 9 - 13, 2024**
